

If you want to get in business for yourself, with the guidance and financial assistance of a successful manufacturing company doing an international business through thousands of Jobbers, Distributors and Dealers all over the World, and you have available capital along with ability to handle salesmen and conduct a business with no chance of competition on a patented line, and your only chance of failure being your inability or neglect, submit to our Mr. Macool evidence in detail of ability to qualify as a Distributor, as to business experience, present connection, finances available and what part of the U. S. you prefer to locate in.

HENRY FORD'S

Transmission Problems Solved

Retains all the advantages and eliminates all the objectionable features of the Planetary transmission and is adaptable to all Model Fords without alterations.

CHANGE FORD TRANSMISSION BANDS IN 20 MINUTES OR LESS

Here's the new "Hudco-Ford" way to change Transmission Bands. ANYONE CAN DO IT! Just unbolt slip cast section, snap out old band—replace section—time 20 minutes or less. Occasional expense of \$60 from time to time as the lining wears out. No tying up the car—can be done on the road.

HUDCO-FORD

Ford Dealers Favor the Hudco-Ford

Installed without extra expense when next changing your bands.

CAILLE

Marine Motors

We carry a complete line of Caille Marine Motors in various sizes from 2 1/2 to 20 H. P. including one, two and four cylinder designs in both standard and heavy duty types. The Caille Aristocrat four cylinder, four cycle, fourteen horsepower motor will be found in many of the finest launches. It has an electric starter, provides electric lights for boats and comes with all instruments mounted on a mahogany bulkhead. You drive your launch as you do your car.

We also have a complete line of Caille Rowboat Motors and Marine equipment. Let us show you the Caille line and refer you to many local users. We have a motor to meet your needs perfectly. Come in.
