

BUYERS' GUIDE

Consult It Before Buying

¶ TO LOOK at the list of those who sell is the modern way of buying goods. The man who buys without looking at the list of those who sell does himself a gross injustice.

¶ USING the Classified Directory of the whole city is like going to the market place—it brings to view each and every individual in any and all lines of trade, and here the intelligent buyer may select the best of everything at the lowest price.

¶ THE HABIT of using the Classified Directory will save large sums of money and will always secure the best in any line. It is the modern up-to-date method of getting what you want.

¶ TO THE ADVERTISER the city directory is the most economical and effective method of saying what he has to say to the entire population.
